

# AUTO-FAXING

## MINING THE VALUE OF VSI\*FAX GOLD

**Phones are ringing.  
Customers are waiting.  
Orders are NOT being taken.**

Maybe your sales people are in a meeting, or taking a break, or perhaps... some of them are standing in line at the fax machine, trying to send a quotation to their customer.

But what if they could do that from their desk? What if your team could fax quotations and other correspondence directly to your customers without having to leave their phone? Would this be beneficial? Save time? Improve service?

With Tribute's Auto-Fax Module, you can do all this and more. Your entire company can send quotations, purchase orders, invoices and memos without leaving their desks, standing in line, or waiting for a print out. And each document you fax automatically is one less you have to print. Thus, you can reduce the use of costly pre-printed forms and save time and money in the process.

**Plus with the latest update to VSI\*FAX Gold by V-Systems, you can...**

- Send broadcast or group faxes
- Create, save and edit messages
- Include your company logo on your cover sheets
- Quickly track any faxed document
- Be automatically notified if any fax fails or if the fax scheduler stops running for any reason
  - Send faxes instantly or at scheduled transmission times

**And you have the option to fax from your Windows programs as well -**

Having one central outlet for all your company's faxes just makes sense – fewer phone lines, fewer modems, fewer problems. Thus, Tribute® Auto-Faxing offers individual VSI\*Fax for Windows client licenses allow you to fax from any of your Windows programs as well as from Tribute®. You can send a letter, spreadsheet, etc. all through the Tribute® System, all via a single server and phone line.

**All of this works off the base Tribute® System and the following software:**

- VSI\*Fax Gold Software Package from V-Systems (FxServer portion only)  
Includes Multi-Tech Modem
- QICWARE Release 6.01
- TRIBUTE® Auto-Fax Module
- TRIBUTE® Release 8.3 or higher
- Fax Gateway
- VSI\*Fax Windows Client (Optional)

**Combined with the Laser Forms Package, Tribute® Auto-Fax will enable you to automatically fax your various laser form documents. Ask for more details.**

**Auto-Faxing makes sense -**

It saves you money (use fewer pre-printed forms) and time (no more standing by the fax) and increases your level of customer service. This allows you to not only take more orders, but to make more on them. Which is really what it's all about.

**Tribute® Auto-Faxing - Efficiency Through Automation**
