

BOSCH REXROTH

SPECIAL ADVANTAGES TO THEIR DISTRIBUTORS

Rexroth

Bosch Group

Tribute, Inc. has forged and maintained a strong relationship with Bosch Rexroth in order to anticipate their distributor's needs. By working closely with Bosch Rexroth, we help our software users meet vendor requirements and maximize discounts – all while selling the product in the most efficient manner.

BENEFICIAL TOOLS

POS Sales Reporting to Bosch Rexroth

TrulinX software users can easily generate a Point of Sales Report to report their sales to Bosch Rexroth each month. TrulinX will then generate an output file that conforms to Rexroth Bosch's formatting requirements, including Rexroth's DCUS ID number.

Rebates

The POS report can be used for rebate purposes and can be generated for a single vendor product category or company location or all vendor product categories/locations. The report contains all the detailed information Bosch Rexroth requires and can also be run for a specific date range.

Automatic Report Generation

TrulinX allows the user to schedule reports so they can be run automatically by the TrulinX system, without having to manually start the report each time.

EDI Transmissions

Bosch Rexroth distributors that utilize EDI to transmit or receive PO's, invoices, and/or order acknowledgements can do that easily in TrulinX.

Upload Catalogs and Easy Price Updates

With TrulinX, you can easily upload catalogs and new Bosch Rexroth inventory and update your vendor pricing, saving significant time and money over doing it manually. And you can do it prior to the price change and enter an effective date.

WarehouseTWO Integration

TrulinX is integrated with the powerful inventory sharing network, WarehouseTWO, which features several authorized Bosch Rexroth product line communities. WarehouseTWO provides a cost effective inventory-sharing tool that allows you to view your peer's inventory as an alternate source to fill your backorders and expedites. Integration with TrulinX allows you to look at and retrieve inventory information as you enter the order.

Leading Edge Technology

Tribute, Inc. communicates regularly with Bosch Rexroth to ensure we are providing the necessary tools for their distributor network to do business efficiently and effectively with their suppliers. We understand the value of maintaining or reducing operating costs in this extremely competitive environment. Unlike many other software providers, TrulinX does not remain static. We pro-actively update our software to keep up with the ever-changing requirements of our client's vendors and customers.

Rexroth distributors among our clients. We are committed to facilitating their success.
