

HELPING DISTRIBUTORS THRIVE

For more than 33 years, Tribute has documented the most common business constraints preventing fluid handling and sealing products distributors from achieving Best Practice.

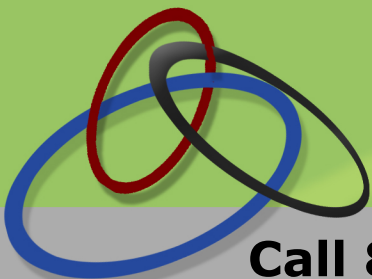

TrulinX software helps companies remove these constraints, enabling them to achieve their goals and objectives, while watching their business thrive.

- ✓ Automated, streamlined and efficient infrastructure
- ✓ Accelerate revenue growth through more efficient processing of data
- ✓ Grow the business without additional staff or capital
- ✓ Reduce costs in areas that have redundancies, dramatically boosting profits
- ✓ Heat tracking enables you to pull inventory from the same batches, providing traceability
- ✓ Better management of your largest asset – inventory!
- ✓ Batch management applies FIFO inventory methods
- ✓ Improved real-time visibility into your business
- ✓ Streamline all daily processes from Quoting to Accounting
- ✓ Drive the growth of your customers, which will increase your sales
- ✓ Kitting helps to consolidate multiple inventory items
