

Power Up Your Business with TrulinX

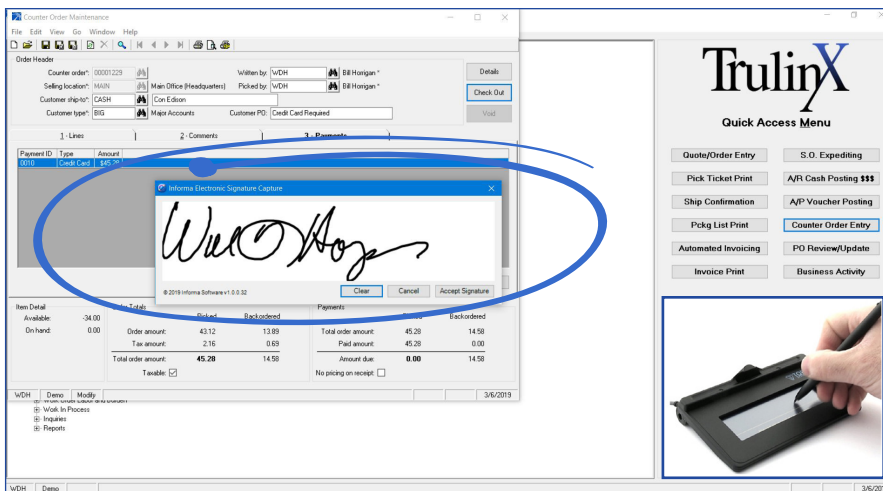

What makes us
the best fit?

TrulinX was built
exclusively for the
hose, rubber,
gasket & seals
industry.
No other ERP can
say the same!

Get the power and flexibility to offer better service to your customers and vendors.

For a **hose distributor**, it's not so easy to get tight and accurate control over inventory while also increasing productivity. What if you had a tool that could help your CSR's generate complete hose assemblies in seconds? And what if this same tool automatically calculated cut-off lengths, material cost and labor amounts and allowed you to automatically generate serial numbers & labels? TrulinX Software does it all.

With the **TrulinX lot tracking system**, you can make time-consuming tasks as simple as the click of a button. **Fluid sealing distributors'** business requires a sophisticated inventory management system - and that may include the ability to determine at a moment's notice which vendor provided you with a product, and which customer took delivery of a specific lot, heat, or batch.

Exclusive Offer for **IDCO** Members...

An IDCO member that invests
in TrulinX by Tribute, Inc. by
12/3/19 will get a **free**

Signature Capture package
(includes signature capture for up to
5 counters, 1 year annual maintenance,
and 2 signature pads),
a deal worth ~ \$5,200.

TrulinX
a product of **Tribute**
Software for Successful Distributors
